DETAILED ACTION

Election/Restrictions

Applicant's election of Species I, claims 1-4 and 6-16 in the reply filed on July 15, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Drawings

Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 5 and 17-39 to an invention non-elected without traverse. Accordingly, claims 5 and 17-39 have been cancelled.

REASONS for ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record discloses most of the limitations of the claims, but fails to show at least the light emitting layer has an average InN composition b ; and an InN composition at any point in the light emitting layer is between $(b - 0.2b)$ and $(b + 0.2b)$.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2815

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure each illustrate a Group III Nitride light emitting device.
